**47th Annual Comprehensive  
Oral & Maxillofacial Surgery Review Course**  
Complete Didactic Review for the Qualifying  
and Oral Certifying Examinations in Case Format Lectures  
**Monday, November 9 - Friday, November 20, 2020**

NEW THIS YEAR, we will be offering the course online in a series of live virtual lectures. The course will comprise a series of 14 lectures given over 10 afternoons minimizing disruptions to clinical practices. You have the option of registering for the entire course or lectures over any three consecutive days. All the material normally given for years at the in-person LSU Review Course in New Orleans will be delivered to you in your office or home. Travel and hotel expenses are gone!

The Oral and Maxillofacial Surgery Review Course is a live virtual educational activity designed for practitioners and residents seeking a comprehensive review of all aspects of Oral and Maxillofacial Surgery. The course emphasizes evidence-based practices of surgery and medicine.

The course is intended to fully prepare those who wish to successfully challenge the ABOMS Qualifying and/or Oral Certifying Examinations as well as provide an up to date comprehensive review of the oral and maxillofacial surgical specialty.

As one of the longest running OMS review courses, we take great pride in providing participants with a second to none educational experience based on previous course evaluations, input from the country's foremost OMS experts, a dedicated advisory committee, and a review of current issues and needs in the field of oral and maxillofacial surgery.

**Learning Objectives:**

- Improve patient care in any/all areas of practice of Oral and Maxillofacial Surgery;
- Identification of knowledge and treatment goal deficiencies,
- Assistance in preparations for the qualifying and certifying examinations,
- Recognition of performance needs and outcomes in patient care,
- Understand a wide variety of diagnostic parameters and surgical treatment options for more efficient and improved/safe patient care,
- Potentially modify treatment goals and patient outcomes as a result of speaker's presentations.

All lectures involve NEW Case Format Presentations which mimic the educational style seen on rounds, case conferences and oral examinations. The live webinar presentations will have interactive discussions between Faculty Speakers and course participants preparing for the ABOMS Qualifying and Oral Certifying Examination.
